If you have been sent this, you should have your A3 song sheet with the melody tab and lead guitar tab on. These are all the necessary parts to play what you can hear in the link.

### Practise Tips

- At First, just try and play the picking pattern in the background and try to stay in time.
- When you're confident on the picking pattern, try moving through the tune and you will find it becomes increasingly more difficult. Take your time on learning the difficult parts, you will grasp them eventually even if they do not come straight away.
- This song is challenging so it may take some time.
- Try playing along with the entire song without stopping.

Enjoy!
