Have a look at the chord shapes used in the song and see if you can play along with the tune.

Practise Tips

- At First, just try and do one downstroke (strum) per chord and see if you can change in time.
- Once you can play along with one strum per chord, try playing the same rhythm as the guitar part in the song.
- When you're confident on the chords, try playing without the backing track and singing along – this will be challenging! But fun once you get it!

Enjoy!
