

## Sunshine Of Your Love (Intermediate)

Today's session is going to focus on the Sunshine of Your Love by the Cream. Cream were a Blues Rock group from the late 60's and also featured the very famous guitarist Eric Clapton. Sunshine of Your Love was one of their most famous songs. Below is a link to the original:

Have listen to the song and listen to the rhythms as carefully as a you can.

Today we are going to be learning the main riff from the song. The term Riff means a repeated pattern in music, usually played by the guitar or bass in a band. This Riff is played using the E, A and D strings on the guitar. It uses both single notes and power chords. If you've not tried these before, uses this song as a way to get better at this technique. It can be challenging, but very much worth it in the end as it will mean you can play more things on the guitar.

Here is a link to the tutorial that you will need to learn then song. Have fun and Enjoy!
